

Stansberry, Linda. "The Humboldt 35: Why does Humboldt County have the highest rate of missing persons reports in the state?" North Coast Journal, 1 February 2018, <https://www.northcoastjournal.com/news/the-humboldt-35-7775161>.

Carly Wipf. "Humboldt Task Force Seizes More Than \$2 Million Worth of Drugs in 2022." KRCR News, 15 Feb. 2023, <https://krcrtv.com/north-coast-news/eureka-local-news/humboldt-task-force-seizes-more-than-2-million-worth-of-drugs-in-2022>.

[*"Agents seized more methamphetamine and fentanyl than any other drug in the county. The report states that the amount of meth seized was 45.64 pounds, which amounts to a street value of \$724,568. About 30 pounds of that haul came from the task force's largest-ever one-time seizure of drugs in September of 2022. The bust led to the arrest of 69-year-old Jose Santiago Lomeli Osuna from Arcata, the leader of a large drug-trafficking organization. Officials had investigated Osuna's ring for a year before taking him into custody. The task force also confiscated 16,090 dosage units of Fentanyl pills, reportedly worth a combined \$482,700. The HCDTF found another 10 pounds of Fentanyl in other forms worth \$459,942. Heroin and cocaine were the next most common drugs confiscated in the county."*]
